by Anastasia Suen

Do you want to grow a pumpkin?  
You can!

How do you grow a pumpkin?  
Get some pumpkin **seeds**.  
Seeds grow into plants.  
Pumpkin seeds grow into pumpkin plants.

Dig a small hole in the dirt.  
Put a seed in it.  
Put some dirt on the seed.

The seed needs sun. It needs rain.  
They will help it to grow.

6

Soon you will see green leaves.  
They are small.

7

The leaves get big.  
Then you will see a flower.

The pumpkin grows under the flower.  
It is small and green.

The green pumpkin grows.  
It will turn orange.

The orange pumpkin grows.  
It will get big.

Then you can take it home.
